

About Me

I am a Web and App Developer with expertise in building dynamic websites and mobile apps. Proficient in front-end technologies (HTML, CSS, JavaScript, React, Angular), back-end frameworks (Node.js, Express, Django, Flask), and mobile development (Kotlin, Java, Swift, Dart), I create scalable, user-friendly solutions. Passionate about innovation, I continuously expand my skills to deliver impactful, high-performance products that address real-world challenges.

Education

Nishan Kinder Garten

Kinder Garten

2008 - 2012

Chakrashala Government Primary School

Primary School Education

2013 - 2014

Patiya Adarsha High School

Secondary School Certificate (SSC)

2015 - 2019

Gacbaria Government College

Higher Secondary Certificate (HSC)

2020 - 2022

International Islamic University Chittagong

B.Sc. in CSE

2023 - Present

Work Experience

Ashraf's App Empire Inc.

Position : Owner

2023 - Present

I am the founder and sole developer at Ashraf's App Empire Inc., where I design and develop innovative mobile and web applications. As the owner and lead developer, I handle every aspect of the development process, from concept and design to coding and deployment, delivering high-quality, user-friendly solutions.

Patiya Community IIUC

Position : Executive Member

Time : 2023 - Present

This community focuses on fostering connections and providing support among students of International Islamic University Chittagong (IIUC) from Patiya, enhancing our academic and social experiences at the university. I contribute to organizing events, facilitating discussions, and supporting initiatives that strengthen our network and promote a sense of belonging.
